	_____	Total number of Complaints for 2019***	
# of Pig Related Complaints	_____	At Large _____	Other _____

The USDA has requested information on complaints dealing with loose or stray pigs that you have received in 2019. Feral pigs are a large concern to both state and federal agencies. They can cause a great amount of damage to property and crops as well as be a potential risk for the spread of diseases. With this information the USDA may be able to assist with future pig related issues.

\* 7 § 3952 Keeping a Dangerous Dog also includes Nuisance dog as well. Please list the number of summons issued and how many dogs were deemed by the court to be dangerous or a nuisance.

\*\* Please include any local ordinance violations or other complaints that are not listed, such as loose tortoise and snake calls in this number.

\*\*\* If all you have is a total number of complaints due to data base restrictions, please just send AWP that information. If you have any questions, please call AWP.

Please submit prior to January 31st 2020
